

DO YOU MEET YOUR CUSTOMER EXPECTATIONS RIGHT?

SOFTWARE TESTING

DO YOU HAVE

- Issues in the test coverage
- Problems to trace back to requirements
- Problems in identifying the right test cases
- Issues in regression testing
- Issues with proper test methodology

THEN, WE SUPPORT YOU

- By implementing a scenario based testing methodology
- Using the Use Case driven functional testing approach
- Setting the right traceability among the use cases and test cases
- Leveraging the re use of test assets
- With efficient version control and automation

WITH EFFECTIVE AUTOMATION USING

- IBM Rational Functional Tester
- IBM Rational Robot
- IBM Rational Performance Tester

Software Testing is a mundane activity in the Software Development Life Cycle. It is often performed under stress and lack of adequate time. Astra provides you a systematic process for Software Testing. Understanding the requirements and relating them to the business scenario will help you to identify the right test cases. Setting a proper traceability among the requirements and test cases enables the team to understand the impact of changes. Astra will support you on automated script generation, modularizing the generated script, automated play back of generated scripts, analysis of various tool generated reports and performance fine tuning.

Astra will support both functional and performance testing requirements. Astra will provide manual testing, Automated testing using industry leading testing and open source tools. Proper test coverage and automation ensures the best ROI.

WHY ASTRA INFOTECH?

- Rich Industry Experience
- Practical approach
- Methodology driven
- Technology and tool level certified consultants
- Process focus
- Solution for root causes elimination
- Industry leading multiple tool expertise
- Proactive support
- Tools, Training, Consulting and Trained resources, all under one roof

OUR SERVICE OFFERINGS

- Tool training & implementation
- Onsite consulting assignments
- Software Engineering audits
- Short/long term onsite manpower placement
- Project/Product based outsourced assignments
